

Consent to Use and Disclosure of Protected Health Information for Purpose of Treatment, Payment, and Health Care Operations

As a condition of providing treatment to you, Preferred Pediatrics must obtain your consent to use and disclose protected health information about you to carry out treatment, payment, and the health care operations of Preferred Pediatrics.

You may revoke this consent at any time by notifying Preferred Pediatrics in writing, except to the extent Preferred Pediatrics has taken action and reliance on your consent.

Your protected health information may be used and disclosed to carry out treatment, payment, or health care operations.

Please refer to the Notice of Privacy Practices for Protected Health Information (“Privacy Notice”) for a more complete description of the uses and disclosures that Preferred Pediatrics may use of your protected health information. You have the right to review the Privacy Notice prior to signing the consent.

Preferred Pediatrics has reserved the right to change its privacy practices described in this Privacy Notice. In accordance with law, the terms of the Privacy Notice may change. At any time, you may obtain a copy of the current Privacy Notice and any revised notice by requesting the Privacy Notice in writing or by requesting a notice in person.

You have the right to request Preferred Pediatrics to restrict the manner in which your protected health information is used or disclosed to carry out treatment, payment, or health care operations. Preferred Pediatrics is not required, however, to agree to such requested restrictions. If, however, Preferred Pediatrics agrees to the requested restriction, Preferred Pediatrics will honor the request and it will be binding on Preferred Pediatrics.

I hereby consent to the use and disclosure by Preferred Pediatrics, its work force, and its business associates of my protected health information for purposes of treatment, payment, and health care operations.
